

YASANGA NIRMAL

Web Developer | Mobile App Developer | BICT Undergraduate

☎ 0770225794 ✉ yasanganirmal2727@gmail.com
github.com/yasanganirmal2727-bit

PROFILE

Motivated BICT (Bachelor of Information & Communication Technology) undergraduate with hands-on experience building web and Android mobile applications. Skilled in integrating on-device AI/ML (Google ML Kit) and generative AI APIs (Google Gemini) into production-style apps. Comfortable across the stack, from UI/UX and Material Design to backend logic and API integration, with a strong interest in AI-powered, real-world software solutions.

EDUCATION

Bachelor of Information & Communication Technology (BICT)
University Undergraduate

2022 / 2023 – Present

Coursework focus: Software Engineering, Mobile Application Development, Web Technologies, Artificial Intelligence & Machine Learning.

TECHNICAL SKILLS

- Mobile Development: Android (Kotlin), MVVM Architecture, Material Design 3, Kotlin Coroutines
- Web Development: HTML5, CSS3, JavaScript, Responsive Web Design
- AI & Machine Learning Integration: Google ML Kit (Face/Landmark Detection), Google Gemini API (gemini-1.5-flash)
- Tools & Platforms: Git & GitHub, Android Studio, Gradle, VS Code
- Other: PDF Report Generation, RESTful API Integration, UI/UX Design Principles

PROJECTS

AI Doctor & Face Symmetry Analyzer — Android Application

Personal / Academic Project

Kotlin · Google ML Kit · Google Gemini API · MVVM · Material Design 3

- Built an AI-powered Android app that performs real-time facial symmetry analysis using Google ML Kit's face detection and landmark tracking.
- Integrated the Google Gemini API (gemini-1.5-flash) to generate personalized, bilingual (English & Sinhala) health advisories based on analysis results.
- Implemented PDF medical report generation, allowing users to export and share a clean, structured summary of their results.
- Designed a modern, intuitive interface following Material Design 3 guidelines, applying the MVVM pattern for maintainable, testable code.

Repository: github.com/yasanganirmal2727-bit/AIDoctor_App

ADDITIONAL INFORMATION

- Languages: Sinhala (Native), English (Working Proficiency)
- Strong problem-solving ability, quick learner of new frameworks and APIs, and comfortable working independently on end-to-end app development.
